

# UNCURED CHICKEN FRANKS

*Shelton's Poultry*

## **3 Reasons to Pick This One!**

1. **QUALITY:** Premium poultry since 1924 . Shelton's Poultry is a family run business who really care about the birds they raise. Their chickens are treated humanely and the franks taste fantastic. Just ask the Kid Critics.

2. **NO DRUGS!** The chickens are not fed antibiotics or any other types of medications. They are free to roam around the farms, peck the ground and get their exercise. Healthy chickens mean a better tasting frank!

3. **NO PRESERVATIVES!** There are no preservatives, fillers, binders, sweeteners or artificial flavorings added. Just chicken and healthy non-irradiated spices to help your kids eat better quality franks. No need to give up one of your kids' favorite easy to make foods.

**Add Shelton's Poultry Uncured Chicken Franks**
